INDEX TO AUTHORS.

ADAMS, D. H., some studies on liver catalase in embryonic and immature chickens and mice, 501

——— and ROE, F. J. C., the action of some chemical substances on mouse liver catalase activity *in vivo*, 509

ARGUS, MARY F., distribution of radioactivity following administration of sulfur 35-labelled disodium fluorene-2, 7-disulfonate in mice bearing a transplantable stomach carcinoma, 273

——— see *Klein, M.*

BASERGA, Renato, see *Shubik, Phillipe.*

BATHER, R., relation between the amount of virus material and infectivity of Rous No. 1 sarcomata, 492

BIELSCHOWSKY, F., chronic iodine deficiency as cause of neoplasia in thyroid and pituitary of aged rats, 203

——— and HALL, W. H., carcinogenesis in the thyroidectomized rat, 358

BONSER, G. M., CLAYSON, D. B., JULL, J. W., and PYRAH, L. N., the induction of tumours of the bladder epithelium in rats by the implantation of paraffin wax pellets, 456

CALCUTT, G., the distribution of reducing groups in tumour cells as determined by supra-vital staining with tetrazolium salts, 260

——— and PAYNE, S., the intracellular distribution of 3 : 4 benzpyrene during metabolism in the mouse liver, 279

CARR, J. G., the biological behaviour of transplants of the GRCH/15 fowl sarcoma, 131

CHRISTIANSEN, T., see *Kreyberg, L.*

——— primary epithelial lung tumours in autopsy material at Rikshospitalet, 1925–52, 428

CHRISTIE, A. C., duodenal carcinoma with neoplastic transformation of the underlying Brunner's glands, 65

CLAYSON, D. B., see *Bonser, G. M.*

——— a working hypothesis for the mode of carcinogenesis of aromatic amines, 460

CLEMMESEN, J., NIELSEN, A., and JENSEN, E., the increase in incidence of carcinoma of the lung in Denmark 1931 to 1950, 1

COHEN, A., and COHEN, L., radiobiology of the C3H mouse mammary carcinoma : comparative radiosensitivity of the tumour prior to implantation and of the established tumour *in situ*, 231

——— ——— radiobiology of the C3H mouse mammary carcinoma : the effect of body dose on the radiocurability of the tumour treated *in situ*, 452

COHEN, L., see *Shapiro, M. P.*

——— see *Cohen A.*,

DENT, C. E., and WALSHE, J. M., primary carcinoma of the liver : description of a case with ethanolaminuria, a new and obscure metabolic defect, 166

DMOCHOWSKI, L., a study of the development of mammary tumours in hybrid mice, 73

——— and STICKLAND, L. H., the distribution of succinoxidase in various fractions of the cytoplasm of some normal and malignant cells of mice, 250

DOLL, R., mortality from lung cancer among non-smokers, 303.

DONIACH, I., the effect of radioactive iodine alone and in combination with methylthiouracil upon tumour production in the rat's thyroid gland, 181

ELLIS, F., see *Lajtha, L. G.*

FOURACRES, F. A., and WHITTICK, J. W., the relationship of molluscum sebaceum (keratoacanthoma) to spontaneously healing epithelioma of the skin, 58

GWYNN, R. H., and SALAMAN, M. H., studies on co-carcinogenesis. SH-reactors and other substances tested for co-carcinogenic action in mouse skin, 482

HALL, W. H., see *Bielschowsky, F.*
HAMER, D., a comparison of different protein fractions obtained from thymus nuclei isolated in an aqueous medium, 151
HARNETT, W. L., the relation between delay in treatment of cancer and survival rate, 19
HEWITT, H. B., studies of the quantitative transplantation of mouse sarcoma, 367
——— the effect of age of host on the quantitative transplantation of Sarcoma 37, 384
HOWATSON, A. F., particulate material in extracts of normal and of tumour tissue: an electron microscope study, 393
HUGHES, A., and SIMON-REUSS, IRMELIN, the immediate effect of some phosphorylated naphthohydroquinones on dividing cells, 142

INGLESIAS, R., MARDONES, E., and LIPSCHUTZ, A., evolution of luteoma in intrasplenic ovarian grafts in the guinea-pig, 214
——— ——— ——— the hormonal background of ovarian experimental tumourigenesis in the guinea-pig, 221

JAKOBSEN, A., primary epithelial lung tumours in post-mortem material from Ullevaal Hospital (Oslo City Hospital), 423
JENSEN, E., see *Clemmesen, J.*
JULL, J. W., see *Bonser, G. M.*

KEEN, P., see *Shapiro, M. P.*
KENNAWAY, E. L., and KENNAWAY, N. M., the incidence of cancer of the lung in coal miners in England and Wales, 10
KENNAWAY, N. M., see *Kennaway, E. L.*
KLEIN, M., ARGUS, MARY F., and RAY, F. E., gastric secretion of flourene-2-azo-2′, 4′-dihydroxybenzene in the rat, mouse and guinea-pig, 264
KREYBERG, L., the significance of "early diagnosis" in breast cancer; a study of some common usages of the term, 157
——— and CHRISTIANSEN, T., the prognostic significance of small size in breast cancer, 37

LAJTHA, L. G., ELLIS, F. and OLIVER, R., isotope uptake of individual cells: uptake of S^{35} sulphate by human bone-marrow cells *in vitro*, 401
LASNITZKI, ILSE, the behaviour of ascites tumour cells *in vitro* and *in vivo*, 238
LIPSCHUTZ, A., see *Iglesias, R.*

MARCHANT, JUNE, and ORR, J. W., further attempts to analyse the roles of epidermis and deeper tissues in experimental chemical carcinogenesis by transplantation and other methods, 329
MARDONES, E., see *Iglesias, R.*
MEYER, P. C., and REAH, T. G., secondary neoplasms of the central nervous system and meninges, 438
MITCHELL, J. S., clinical assessment of tetrasodium 2-methyl-1 : 4-naphthohydroquinone diphosphate as a radiosensitiser in the radiotherapy of malignant tumours, 313
MURRAY, J. F., see *Shapiro, M. P.*

NIELSEN, A., see *Clemmesen, J.*
NORDLING, C. O., a new theory on the cancer-inducing mechanism, 68

OLIVER, R., see *Lajtha, L. G.*
ORR, J. W., see *Marchant, June*

PAYNE, S., see *Calcutt, G.*
PEACOCK, ANDREE, a possible mode of transmission of the mouse mammary tumour agent by the male parent, 352
——— see *Peacock, P. R.*
PEACOCK, P. R., and PEACOCK, ANDREE, further evidence of essential differences between some chemically-induced and virus-induced fowl tumours, 120
PULLINGER, B. D., evidence of milk factor in a strain of CBA mice, 490
PYRAH, L. N., see *Bonser, G. M.*

RAY, F. E., see *Klein, M.*
REAH, T. G., see *Meyer, P. C.*
RIGBY-JONES, P., the influence of various factors on metastases in carcinoma of the breast, 431
RITCHIE, A. C., see *Shubik, Philippe*
ROE, F. J. C., see *Adams, D. H.*
——— see *Salaman, M. H.*

SALAMAN, M. H., see *Gwynn, R. H.*
——— and ROE, F. J. C., incomplete carcinogen. Ethyl carbamate (urethane) as an initiator of skin tumour formation in the mouse, 472

SCHADE, R., tumours of the glomus jugulare and glomus caroticum, 449

SHAPIRO, M. P., KEEN, P., COHEN, L., and MURRAY, J. F., skin cancer in the South African Bantu, 45

SHUBIK, PHILIPPE, BASERGA, RENATO, and RITCHIE, A. C., the life and progression of induced skin tumours in mice, 342

SIMON-REUSS, IRMELIN, see *Hughes, A.*

STICKLAND, L. H., see *Dmochowski, L.*

STOCKS, PERCY, studies of cancer death rates at different ages in England and Wales in 1921 to 1950: uterus, breast and lung, 283

——— a study of the age curve for cancer of the stomach in connection with a theory of the cancer producing mechanism, 407

TCHETCHIK, M., see *Zondek, S. G.*

WALSHE, J. M., see *Dent, C. E.*

WHITTICK, J. W., see *Fouracres, F. A.*

WILTSHIRE, G. H., the optical form of glutamic acid in tumours, 137

ZONDEK, S. G., and TCHETCHIK, M., malignant growths (including leukaemia) and essential hypertension, 418
